

High Risk Review Assessment (Domestic/Partner Violence)

**HART Centre and South Hastings,
Prince Edward County.**

DART Bancroft

Accused Name: _____

Case ID: _____

This assessment determines whether this case should be referred for team review.

Use ONLY for charges laid against a partner or previous partner of the victim. Do not complete for other kinds of cases.

Section 1

Does the victim answer yes or no to the following questions?

1. Partner has threatened to kill you or your children? Yes No
2. Partner has used a weapon against you or threatened to use a weapon? Yes No
3. Do you think he or she might try to kill you? Yes No

Total number of 'yes' answers in Section 1:

Section 2

Does the victim answer yes or no to the following questions?

1. Partner has a gun or has easy access to one? Yes No
2. Has partner ever tried to choke you? Yes No
3. Partner is violently jealous or controls daily activities (spying on you, where you go, who you see, money, not let you have employment etc. Yes No
4. Have you left partner or were separated for any period of time since living together or being married? Yes No
5. Is partner unemployed? Yes No
6. Has partner threatened or tried suicide? Yes No
7. Do you have children that are not his or hers? Yes No
8. Does partner follow you or leave threatening messages? Yes No

Total number of 'yes' answers in Section 2:

Section 3

If Section 1 has at least one (1) 'yes'

AND

Section 2 has at least four (4) 'yes'

The case is referred to HART/DART

Refer to HART or DART?

Yes No

You may still refer partner violence cases if the score does not reflect HART when it is your judgment that the risk of further serious violence is high.

Research indicates that the presence of the following increases the chances of the situation escalating into an attempt or actual homicide:

- A) There has been abuse during pregnancy (at any time)
- B) There have been threats to the children in the home
- C) There is a combination of controlling behaviour and separation
- D) There is a history of violence that has increased in frequency and severity over time/during the relationship

Check here if you still wish to make a referral even though the case did not score for automatic referral

Yes
